The Crown Jewel of the West Coast

THE
WEST COAST
FISHING CLUB

WELCOME TO THE CLUBHOUSE

Set amid one of the world's most breathtaking landscapes, The Clubhouse on Langara Island is a magnificent fishing lodge where guests can also experience the wonder of the open ocean and the ancient rainforests. This superb haven rivals the location of most luxurious lodges, anywhere in the world.

However, at the West Coast Fishing Club, the spectacular location and fishing are only part of the experience. Pamper yourself in the spa, go whale watching, and all the while view sea lions sunning on the rocks, or catch a glimpse of river otters, and gaze as eagles and other seabirds do their fishing. Take a walk in the ancient forests with a Haida guide, discover beachcombing in a secluded bay, or just unwind inside and savour the beauty of this natural treasure.

The Clubhouse is situated on the highest point of Langara Island, in the Queen Charlotte Islands in northern British Columbia. Lying in the middle of the habitual migration route of pacific salmon, and where halibut abound, The Clubhouse provides an ideal location for any fishing or nature enthusiast.

*"Put your feet up
and make yourself
at home."*

STYLISH LUXURY, STUNNING VIEWS

The classic cedar design and construction of The Clubhouse reflects the commitment of the West Coast Fishing Club to provide guests with unsurpassed levels of quality and service in a lodge that complements its beautiful natural surroundings. Designed for only 52 guests, The Clubhouse features spacious common areas, with a large open fireplace, well-provisioned bars, and digital satellite television. When you're ready for a quiet moment, the library provides a comfortable place to end the day with a fishing magazine and a tumbler of Scotch, a piping hot espresso, or what ever is your pleasure.

The outdoor lounge, with its spectacular fireplace, provides a popular spot to share a drink and watch the setting sun. Or catch that twilight from the deck's hot tubs and simply soothe your spirit. Inside, each of the 28 guest rooms are stylishly and luxuriously appointed, with stunning views of the ocean or the forest.

UNFORGETTABLE DINING EXPERIENCE

The Executive Chef and his team ensure an inspired menu to provide guests with not just a meal, but a gastronomic delight, served in the stunning Parry Pass Dining Room; a two storey solarium looking out over the Pacific Ocean. The Clubhouse regularly hosts guest chefs from some of North America's finest restaurants for an unforgettable dining experience. The carefully selected wine cellar is sure to provide something for every taste and palate.

Private parties of up to 20 may reserve the intimate private dining room, appointed with fine china and antique sterling silver, for a remarkable, old-world contrast to the untamed ocean and forest outside.

*"Savour the beauty of
this natural treasure"*

RELAX & SOOTHE YOUR SPIRIT

With its breathtaking view of Shag Rock and Parry Pass, The Clubhouse Spa provides a full range of fitness equipment, a steam room, sauna and two hot tubs. Treat yourself to a professional therapeutic massage after a long day out on the water. . . or perhaps do so instead of that long day out.

THE FLEET AND EQUIPMENT

The guided fleet of 22' to 27' Boston Whalers is simply the best in the Pacific Northwest. All boats are GPS equipped and outfitted with VHF radios, fish finders and electric downriggers. Guests are outfitted with all-weather, ocean class survival suits, graphite rods, Islander reels and halibut gear.

Although the Club recommends guided fishing, some guests prefer the adventure of fishing unguided. These guests are accommodated with a fleet of 19' Boston Whalers. These 2006 vessels are equipped with Mercury 90 HP four strokes, colour GPS/ sounder, VHF radios, dual electric downriggers, advanced trolling plate, and 3 custom rods and reels. Only a limited number of boats are available.
