

The Clubhouse Fishing Report

CALENDAR CONTEST

March 22, 2009

Thanks to everyone who submitted photos for the calendar in 2009. The West Coast Fishing Club calendar has become one of our most prized publications due, in part, to the photographic contributions of our guests.

To everyone who submitted photos but did not see their photo in the calendar, we thank you for the memories. There were many photos that were sent in that we would love to have included, but unfortunately, there are only 12 months in the year! Check our winter 2008 newsletter for some of the 'also rans' and our website photo gallery for some of the fabulous photos received.

In advance, for 2010 photos submissions, please remember to use high resolution on your digital camera to ensure that we have photos that can go to print.
